

**AMENDMENTS TO THE SPECIFICATION**

Please make the following further changes to the specification:

These amendments are made from the substitute specification filed with the application on February 13, 2002.

Page 1, after the heading BACKGROUND OF THE INVENTION, please insert the heading:

**Field of the Invention**

Page 1, before the second full paragraph beginning with "Such a telecommunication" insert the heading:

**Description of the Related Art**

Page 2, before the second full paragraph beginning with "It is an object", insert the paragraph:

US 6,055,542 discloses a system for displaying the content of a web page based on a user's interests, US 6,029,135 discloses a hypertext navigation system controlled by spoken words, US 5,764,639 as well as US 5,889,845 disclose a system for providing a remote user with a virtual presence to an office, US 6,052,725 discloses a non-local dynamic internet protocol addressing system, US 5,898,780 discloses an apparatus for authorizing remote internet access, and US 5,598,536 discloses an apparatus for providing remote users with the same unique IP address upon each network access. Neither one of these documents discloses the telecommunication system according to the invention. All references including further references cited with respect to and/or inside said references are considered to be incorporated in this patent application.

Amendment Under 37 CFR 1.111  
USSN 10/049,507

Page 11, delete the third full paragraph:

~~US 6,055,542 discloses a system for displaying the content of a web page based on a user's interests, US 6,029,135 discloses a hypertext navigation system controlled by spoken words, US 5,764,639 as well as US 5,889,845 disclose a system for providing a remote user with a virtual presence to an office, US 6,052,725 discloses a non-local dynamic internet protocol addressing system, US 5,898,780 discloses an apparatus for authorizing remote internet access, and US 5,598,536 discloses an apparatus for providing remote users with the same unique IP address upon each network access. Neither one of these documents discloses the telecommunication system according to the invention. All references including further references cited with respect to and/or inside said references are considered to be incorporated in this patent application.~~

amend the last two paragraphs as follows:

The invention will be further explained at the hand of an embodiment described with respect to a drawing, whereby the single figure schematically illustrating a telecommunication system according to the present invention.

Figure 1 discloses a telecommunication system according to the invention comprising a network according to the invention and a terminal according to the invention, including and a generator according to the invention.
